05.03.18 Australia - Santiago de Chile - Lima, Peru

Brisbane passengers depart at 6.30am on Qantas flight QF 507, arriving in Sydney at 9.05am. Melbourne passengers depart at 7.45am on Qantas flight QF 402, arriving in Sydney at 9.10am.

All passengers depart Sydney at 11.10am on Latam Airlines flight LA 800, arriving in Santiago de Chile at 1.00pm. (This flight goes via Auckland). All passengers then depart Santiago at 2.55pm on LA 642, arriving in Lima at 4.50pm. Upon arrival we are met and transferred to the hotel.

Lima is situated in the coastal desert district between the Pacific Ocean and the western hills of the Andes Mountains. Lima seems to scare off some tourists because of its status as one of the biggest cities in the Americas, however Lima runs at a slower pace than many South American metropolises. Its rhythm is more traditional and its people reflect a steadier, calmer constitution. Lima's unusually amenable inhabitants give the metropolis the feeling, at times, of a cluster of smaller towns. Lima's physical atmosphere is slightly dreamlike, mostly because of the garua, a mist that settles over the city between May and October. Under its blanket, Lima's inhabitants meet at the penas (bars offering folk and Creole music), shop at the open market places and dine at Lima's celebrated restaurants. Several museums display and preserve Peru's golden past, including most notably the internationally famed Museo Nacional de Antropologica y Arqueologica and the Museo de Oro, the stunning museum of gold. Every part of Lima has its own unique atmosphere. Downtown Lima is crowded and busy, both modern and colonial at the same time. The Plaza Mayor is considered one of the most beautiful plazas in Latin America. Most neighbourhoods around the centre are friendly and green, with many small parks and an unmistakable colonial touch, especially Jesus Maria and Magdalena del Mar. The other heart of Lima is the uptown shopping and business area, Miraflores. Here you can find stylish avenues and fancy beaches. Close to Miraflores is the romantic, village-like district of Barranco, overlooking the Pacific.

Accommodation: Casa Andina Standard Miraflores Centro Hotel

06.03.18 Lima - Cuzco - Sacred Valley, Peru

(B) Today there is a three hour sightseeing tour which offers the best of colonial and modern Lima. Included are Lima's most imposing colonial churches and mansions such as the Government Palace, the Plaza Mayor, the City Hall and the Cathedral, including the 17th Century San Francisco Monastery. The tour ends with a visit to the modern suburbs of San Isidro, where we will visit the pre-Inca pyramid of Huaca Huallamarca, before continuing to Miraflores, overlooking the Pacific Ocean.

Afterwards we are transferred to the airport for our flight to Cuzco. Upon arrival we will be transferred to our hotel in the Sacred Valley.

Note: Cuzco has a high altitude of 3310m which can cause breathing to be a problem. To combat the effect of the high altitude it is suggested you drink plenty of liquids on your first couple of days. Most people are fine, but some experience headaches, vomiting, dizziness.

Cocoa tea is a wonder. Check out the site www.high-altitude-medicine.com

Accommodation: San Agustin Monasterio de la Recoleta Boutique Hotel

07.03.18 Sacred Valley, Peru

(B/L) The area of the valley between Pisac and Ollantaytambo is known as the Sacred Valley of the Incas, a long narrow valley which, in the southern region goes back up to Urcos and towards the north, crossing Ollantaytambo before it finally reaches the citadel of Machu Picchu. Over

the years, the power of the Incas became more and more firmly implanted. The terraces are a testimony of the vast production of food, and the Ollantaytambo ruins reflect the ambitious plans of the leaders of Cuzco.

We visit Awanacancha, a weaving centre that still practices the traditional textile arts. Here we can see four members of the cameloid family, llama, alpacas, vicunas and guanacos. Alpacas have thick wool and are the most commonly used while the vicunas are small and delicate and have the finest fur. We learn about the harvesting of the different wools and the natural dyeing techniques, with a chance to see native weavers from different areas, showing their different weaving styles and dress. Next we continue to visit the ruins of Ollantaytambo, along with a visit to the colourful Andean market of Pisac for a chance to do some souvenir shopping. We will have lunch at a restaurant in the Sacred Valley. Afterwards we return to the hotel in the Sacred Valley.

NOTE: On the 8th March there is a rail trip to Machu Picchu, which has a luggage restriction of 5kg and 157cm (height + length + width) per person. Taking all of your luggage will incur an excess baggage charge of USD \$5 per kilo. We recommend packing a small bag for the next night, and the rest of the luggage will be driven back and stored in your Cuzco hotel at no charge.

Accommodation: San Agustin Monasterio de la Recoleta Boutique Hotel

08.03.18 Sacred Valley - Machu Picchu, Peru

(B/L/D) This morning we transfer to Ollantaytambo Railway Station to board the Vista Dome train for the rail service to Aguas Calientes Station and then a bus to Machu Picchu, the fabled city of the Incas. The joy of visiting Machu Picchu is not limited to the ruins themselves. After leaving Ollantaytambo, the railway enters the beginnings of a gorge, which grows narrower and deeper. The vegetation grows more prolific. We are entering the 'eyebrow of the jungle', and finally reach Aguas Calientes Station, 1.5 kilometres below Machu Picchu.

When Hiram Bingham rediscovered Machu Picchu in 1911, he mistakenly thought he had found the location of Vilcabamba, the lost city of the Incas. The true site of Vilcabamba was actually discovered by Gene Savoy in 1964. So, what was Machu Picchu? Many people say it was a secret refuge. The Incas actually had no written language but they have oral history records. However, the existence of Machu Picchu and the region seems to be entirely erased from official memory.

Was it a Royal Residence? A site of spiritual and ceremonial significance? or was it used for defence from the fierce jungle tribes? Garcia de Loyola mentioned an Inca fortress that was 'on a high eminence surrounded by rugged crags and jungles, very dangerous to ascend and almost impregnable'. Most visitors to Peru see Machu Picchu, which is perched on a narrow saddle of rock high above a hairpin curve of the Urubamba. The granite sugar loaf of Huayna Picchu towers above the ruin and shrouds of low clammy cloud often grip the surrounding forested hillsides. Such scenery makes Machu Picchu one of the world's most beautiful ruins.

The valleys below the spurs occupied by the fortresses of Vilcabamba were tightly wooded, not with the tall trees of the Amazonian rain forests, but with smaller, gnarled trees and dense vegetation clinging to the steep slopes. Many of the branches are loaded with gloomy, dripping moss and the woods are dark and sombre. Close to the rivers are thickets of *Nicotiana tormentosa*, the tree tobacco of the Andes, and Machu Picchu boasts a giant slipper wort with great flat leaves and brilliant yellow flowers.

Our local guide will take us through the ruins. We then have lunch at the Sanctuary Lodge Restaurant or Mapi Pueblo Restaurant. After lunch there is free time to wander around the ruins. Then we transfer by bus to the town of Aguas Calientes for an overnight stay.

Accommodation: Inkaterra El Mapi Hotel

09.03.18 Machu Picchu - Cuzco, Peru

(B) This morning is at leisure. If you wish to visit Machu Picchu once again or climb the Huayna Picchu Mountain, you will need to contact us well in advance to pre purchase your entrance ticket. Huayna Picchu Mountain (The Young Mountain) is the famous mountain you can see in front of the citadel, appearing in most of the usual vistas of this amazing place. Only 400 passengers are permitted to climb this mountain daily and it is restricted to two time schedules of 7am and 11am.

In the afternoon we take the train to Cuzco, where we are met and transferred to the hotel.

Note: The entrance fees and bus fees for the second day to Machu Picchu are not included.

Accommodation: Casa Andina Standard Catedral Cuzco

10.03.18 Cuzco, Peru

(B) Cuzco is one of the most famous cities in South America, as it is the oldest continuously inhabited metropolis on this continent. The city itself was probably founded in 1000BC, but in 1534 the Spanish Conquerors re-founded it according to the European way. Wherever we stop in Cuzco we will find remains of ancient civilizations as this was the capital of the Incas and the place where most of their superb works were done. This city is considered as the archaeological capital of South America and has been declared by UNESCO a Cultural Heritage Site.

Our half day city tour will commence at the Qoricancha Temple, an ancient Inca palace and main worship centre of the Sun God. Then we tour the Plaza de Armas, where the cathedral and the beautiful Church of the Society of Jesus are located. We will continue to the colonial church of San Cristobal to enjoy a spectacular view of the city. We proceed to the famous fortress of Sacsahuaman, an Inca building known for its massive walls of hewn stone and its hilltop location. Later we visit the important archaeological complexes of Q'enqo and Puca Pucara.

Accommodation: Casa Andina Standard Catedral Cuzco

11.03.18 Cuzco - Puno, Peru

(B/L) We will be picked up from the hotel and transferred to the railway station in Cuzco for our train journey between Cuzco and Lake Titicaca aboard our first class train. This spectacular rail journey travels south from Cuzco, gently climbing to higher and colder altitudes. The first half of the journey is dominated by magnificent Andean mountains which tower over the deep valleys of the meandering Huatanay River. It then reaches the gentler, rolling Andean Plains, where vicunas and alpacas can be seen. We enjoy an excellent three course lunch on board the train, followed by coffee served in the observation car. A stop is made at La Raya Pass, at 4,321 metres. This is the highest point on the journey. Continue southward until arriving in Puno.

Puno was the territory of the Tiahuanacos (800A.D. - 1200A.D.) who were the highest cultural expression of the Aymara people that established themselves in what is today Peru and Bolivia. The Incas took over these lands in the fifteenth century and the Spanish, attracted by the mining industry which developed there, left an important colonial legacy throughout the entire area.

The city of Puno, with an altitude of 3280 metres, is situated on the shores of Lake Titicaca, the highest navigable lake in the world and the site of the Feast of the Virgen de la Candelaria. The lake contains numerous islands whose inhabitants continue to live as their ancestors have in custom and tradition. The Uros are an example of this. This group lives on 'floating islands' that they have artificially made entirely of totora reeds and they navigate in their traditional boats also made out of totora reeds. Taquile, Suasi and Amantani are known for their kindness, their ancestral skill in weaving, their pre-Columbian constructions and their lovely countryside. The Titicaca National Reserve (36,180 hectares) protects extensive stretches of totora reeds and various species of plants and animals.

After alighting the train, we are transferred to our hotel.

Accommodation: Casa Andina Premium Collection

12.03.18 Puno, Peru

(B/L) Today we have a tour to Taquile and Uros Islands to experience the Andean culture. We begin by arriving at Huayllano Port on Taquile Island and visit the house of a local family to engage in some activities with them, such as weaving. Afterwards we enjoy lunch made from fresh local products. Next we walk to the town square and board our boat to sail to Uros Island. The lives of the Uros Indians are dependent upon the tortora reeds. Their boats, their houses and even their islands are made from these reeds. The Uros on the islands have intermarried with the Aymara and no pure Uros exist. The present Puno Bay people still practise some Uros traditions, but Aymara influence predominates. The people are friendly, but very poor. Accommodation: Casa Andina Premium Collection

13.03.18 Puno - La Paz, Bolivia

(B/L) Today we cross from Peru into Bolivia, via the lovely lakeside village of Copacabana with its remarkable church and views of Lake Titicaca. During the journey it may be possible to view the snowcapped mountains of the Cordillera Real. Our guide is also a naturalist who has a keen interest in flora & fauna of the lake and will be happy to share knowledge and answer your questions.

We will have an early land transfer to Copacabana Sanctuary and then board the catamaran cruise ship. We have lunch while sailing to Sun Island, the legendary birth place of the Inca Empire. Visit the Inca Garden, steps and fountain, then the Inti Wata Cultural Complex including the Ekako Underground Museum, and the Titicaca Reed Shipbuilders Display Centre, the Pachamama agricultural Inca terraces, a handicraft centre, the Intica lounge and the Manco Kapac lookout and see the largest variety of Andean cameloids. Also, Inti Wata Complex at Sun Island includes a unique sailing experience aboard a huge Titicaca traditional vessel to enjoy a panoramic visit of the Pilkakaina Inca Palace. We take a catamaran cruise ship to Chua Harbour, then a land transfer to La Paz city. On arrival we will be transferred to our hotel.

La Paz must qualify as one of the world's most dramatically located cities. It lies sheltered from cold winds within a steep canyon, just below the rim of the altiplano. The city's skyline is dominated with huge office blocks and the snow covered peaks of Mount Illamani (6439m). La Paz was founded by the Spanish in 1548. It has a population of nearly 1.3 million inhabitants and is now a modern city with few colonial buildings left except around Plaza Murillo, which at 3636m above sea level, marks the very heart of the city where the government buildings and the cathedral can be found.

Spain controlled La Paz with a firm grip and the Spanish king had the last word in all matters political. In 1781, for a total of 6 months, a group of Aymara people laid siege to the no longer peaceful city of La Paz. Under the leadership of Tupac Katari, they destroyed churches and government property. Thirty years later Indians laid a two month siege on La Paz. In 1809 the struggle for independence from the Spanish rule brought uprisings against the royalist forces. Today La Paz is a vibrant city, growing and expanding in all directions. 'Pacenos' as the locals are called, are quite traditional, maintaining strong ties with their indigenous ancestry. Interesting attractions include typical Indian markets, cathedrals and historical monuments.

Accommodation: La Casona Hotel Boutique

14.03.18 La Paz, Bolivia

(B) Today there is a half day city tour of La Paz and Moon Valley. The 'City of Contrast', La Paz is a blend of many civilisations. Today we will visit a typical Indian market, the famous Witch Doctor's Market and the San Francisco Colonial Church. The

tour continues to the Plaza Murillo where the Cathedral, the Government Palace and the National Congress buildings are located. Then, visit the famous colonial street Calle Jaen, where interesting museums are clustered together, followed by a visit to the replica of the semi-subterranean temple of the Tiwanaku culture. For a change of scenery, the tour continues to residential areas of Obrajes, Calacoto and La Florida. The tour ends with a visit to the unique Moon Valley where rose coloured volcanic rock formations can be seen.

(B/D) Today is at leisure to shop or do as you please. When it comes to shopping, Buenos Aires can be one of the most charming cities in the world. From grand boulevards to the winding streets of Arroyo, the city offers an endless variety of boutiques, galleries and antique shops. Shopping malls have become a daily getaway and a convenient shopping location for many Portenos. breathed in every corner of the city. After dinner we are transferred back to the hotel.

18.03.18 Buenos Aires – Iguazu Falls

(B) This morning we are transferred to the airport for our flight to Iguazu Falls (Argentine side). Upon arrival we will be met and transferred to our hotel for a two night stay.

Note: The city of Puerto Iguazu has a municipal tax for both the Argentine side and the Brazilian side of the city. For Argentina the cost of the tax is approximately \$2 USD per person, per night, payable directly to the hotel in cash. The hotel will provide a receipt for this city tax, which needs to be carried as it will be inspected at the control post on Route 12 on the way to the National Park, airport and/or city centre. If you forget this receipt you will be required to pay the tax again. For passengers staying on the Brazil side, the tax is payable when entering the city of Puerto Iguazu at the control post on Route 12.

Accommodation: La Aldea de la Selva or similar

19.03.18 Iguazu Falls, Argentina

(B) The Iguazu Falls region contains great rivers, humid tropics, red earth and magnificent jungle. 18kms from Puerto Iguazu we enter the National Park of the same name where the famous falls are. The deep flowing waters of the river fall from a height of 70 metres through 275 falls over 2.7kms. The frontier with Brazil goes through the Garganta del Diablo (Devils Throat) where the falling water gives the illusion of magic rainbows. The National Park is full of exotic subtropical vegetation which surrounds the falls and has 2000 plant species - gigantic trees, ferns, lianas, orchids - 400 bird species - parrots, colibris, toucans - jaguars and yacares (caimans).

Today we will embark on a half day guided tour walking along the many tracks on the side of the river and observing the falls from platforms that bring us extremely close to the water. In the Indian Tupi Guarani language, Iguazu means large waters. Appropriately, the Iguazu River flows east west for 808 miles and then drops suddenly and violently into a 262 foot abyss at the falls, which is set amidst jungle.

From our hotel we are transferred to the visitor's centre inside the Iguazu National Park. We will board a small train to reach the beginning of the upper path, lower path and Devil's Throat. The upper path is a walk of about 500 metres and lasts about 45 minutes visiting the Two Sisters, Bosseti, Adam and Eve, Bernable Mendez, Mbigua and San Martin Falls. On the lower path, with a professional guide, we will walk 1.3kms of footpaths lasting approximately 90 minutes for a different view, but be warned, you may get a little wet! After riding 4km on board a small train, we will reach Devil's Throat Station surrounding the upper part of the Iguazu River. From here we will walk along a bridge (walkway) that leads to the balcony of Devil's Throat for the most spectacular view.

Accommodation: La Aldea de la Selva or similar

20.03.18 Iguazu Falls – Rio de Janeiro

(B) We have an early breakfast this morning, before transferring by bus to the Brazilian side of the falls to start our tour. Remember to have your passport ready when passing the Argentine/Brazilian border.

Visiting the falls from the Brazilian side will give a different perspective and a panoramic view of the entire falls. Also from the Brazilian side of the falls we will be able to take an optional helicopter flight over the falls (approx. USD 100 per person - please note that this flight cannot be pre-booked). This flight takes around 7 minutes but it's worth every cent. Or for the adventurous, you can take an optional trip on the Macuco Safari boat, going upstream on the river, taking you extremely close to the falls. At the completion of the tour we are transferred to the airport on the Brazilian side for our flight to Rio de Janeiro. Upon arrival, we are transferred to our hotel for a three night stay.

In the early 16th century, the Portuguese first arrived at the site where Rio de Janeiro now stands. What they found was a still-watered bay surrounded by a plentiful and lovely landscape. It was love at first sight. The Portuguese promptly built a fortress at the entrance of the bay to ward off those attracted to their tropical paradise, which they called Sao Sebastiao do Rio de Janeiro. By 1768 Rio had developed and grown to such an extent that the government was transferred from the previous capital, Salvador, Bahia. Rio was then, as now, a city of intensive trading activities.

Its primary asset, Guanabara Bay was not just a beautiful landmark, but also a natural port through which gold and diamonds, mined in the neighbouring Minas Gerais Mountains, flowed. The gems, used to adorn the ladies of the Portuguese Court, as well as the as yet rare sugar cane were important commodities in the European markets of this time. When King John VI of Portugal landed in Rio in 1808 along with his court and entire entourage, he fell in love with what he saw and experienced. He subsequently helped Rio to become one of the most important political centres in Brazilian history.

Brazil achieved independence from Portugal in 1822 and became an empire. Some years later in 1889, the city of Rio enthusiastically witnessed the Proclamation of the Republic of Brazil. Rio de Janeiro has evolved continuously since, remaining a centre for business and the arts while becoming one of the world's most dynamic cities.

Note: Australian passport holders require a tourist visa in order to enter Brazil. This must be organised prior to departure.

Also Note: There is a Government tax for accommodation in Brazil that must be paid locally and varies between USD \$1 - \$3 per room, per night.

Accommodation: Windsor Martinique Copa Hotel

21.03.18 Rio de Janeiro, Brazil

(B) Today our tour begins through downtown Rio, passing by the Sambodrome and the Metropolitan Cathedral, in pyramid form, with an internal diameter of 96 metres and a height of 80 metres. Get to know the traditional Cinelandia Square with the historical buildings, the Municipal Theatre, the National Library and the National Museum of Fine Arts. By taking the Aterro do Flamengo, we will go to the neighbourhood of Urca where one of the largest symbols of the city is located, the Sugar Loaf. This visit is made in two steps by cable car. The first cable car takes passengers to Urca Hill, which is 215 metres high and from where one can have a beautiful view to Guanabara Bay and its islands, the Rio-Niteroi Bridge and Corcovado Hill. From this stage, a second cable car will be taken up to the top 395 metres to find a splendid view of Copacabana Beach, the Santa Cruz fortress and some beaches of Niteroi.

Once there, a breathtaking panoramic view of Rio will be seen. Sights include the Sugar Loaf, Guanabara Bay, the beaches of Southern Zone and the Rodrigo de Freitas Lagoon. After the visit of the Corcovado, the tour will continue to Sao Conrado area with a brief stop at Pepino Beach from where we can see hang gliding.

Brazilian dances.

23.03.18 Rio de Janeiro – Santiago de Chile

(B) Today we depart the hotel and transfer to the airport for our flight to Santiago. Upon arrival in Santiago, we are met and transferred to our hotel.

Chile's capital, Santiago, is located in the central valley approximately 1800 feet above sea level, framed by the majestic Andean Mountain Range and only 120kms from the Pacific Ocean.

First settled in 1541 at the foot of the Santa Lucia Hill, it is now the fifth largest city in South America and is set in one of the most beautiful locations. Although essentially a modern capital, it still has some beautiful historic colonial buildings dating from the 16th century. You can ask the hotel for a map of the city and visit the colonial sector or maybe visit the Pre Columbian Art Museum, a museum that has a representative exhibition of objects from the pre Columbian cultures of Central America and the Andean Region.

Please note: When entering Chile, Australian passport holders are required to pay a reciprocity fee of USD \$117. The payment of this reciprocity fee is not a visa. This amount must be paid at the International Airport in cash or credit card only.

Accommodation: Luciano K Hotel

24.03.18 Santiago de Chile

(B) This morning we have a sightseeing tour of the city of Santiago. See the Civic Centre and La Moneda Presidential Palace, the house of government, that was originally built to coin money. In 1846 President Manuel Bulnes had La Moneda fitted out as the private residence of Chile's presidents, which it remained until 1958. Now the building has been renovated as a government palace, the seat of the Presidency of the Republic. The Plaza de Armas, originally following Spanish customs, was an open space where open air markets could be held and it wasn't until 1860 that the first flower gardens were planted together with trees that are still there to this day. The cathedral has three previous versions erected on the same site that have all fallen prey to fires or earthquakes. The fourth and present building was completed in 1775. You will pass the main post office, erected in 1882 using some of the walls from the former Governor's Palace in colonial times, the pedestrian streets of Huerfanos and Ahumada, indisputably the social, commercial and functional axis of Santiago, the prestigious Social Union Club, the National Library and Santa Lucia Hill, the site of the foundation of Santiago on February 12, 1541. Head towards Bellavista district. This area is home to many of Santiago's artisans and is lined with galleries, as well as open-air cafes, restaurants and nightlife. We will go to a lookout on San Cristobal Hill, with its tallest peaks rising 880 metres above sea level, for a panoramic view of the city. We continue towards the residential districts of Vitacura, Las Condes and Providencia, boasting modern high rise buildings and exclusive shopping malls. On completion of the tour we will have the choice of staying at the exclusive Parque Arauco shopping centre or returning to the hotel. (B/L)

This morning we are transferred to the airport for our flight to the Galapagos Islands. Please note that luggage is restricted to 20kg only for these flights.

A trip to Ecuador is not complete if a visit is not made to the Galapagos Archipelago, located almost 1,000 kilometres from the Ecuadorian continental coastline. Made up of 13 large islands, 17 small ones and 47 rocky islets, the archipelago covers an area of 8,000 square kilometres.

The islands were discovered in 1535 by Brother Tomas de Berlanga. Declared a National Park in 1959, the Charles Darwin Foundation was also organised in this year to commemorate the islands link with the evolutionary scientist. The province of Galapagos was legally created in 1973 and it was declared a "Natural Heritage of Humanity" by UNESCO in 1979.

Each year tourists flock to the islands attracted by the natural surroundings and the unique flora and fauna, often not found anywhere else in the entire world. The environment is informal and itineraries are planned so that two or more visits may be made daily to the islands.

Upon arrival in Baltra we take a shuttle to Santa Cruz Island and head for the highlands, with its green vegetation. We stop at a ranch to see the Giant Turtles in their natural habitat. Lunch is at the ranch, before continuing to Charles Darwin Station, located on the south side of Santa Cruz Island.

Please note: The admission fee to the Galapagos National Park is USD \$110 per person and must be paid in cash on arrival. A Galapagos National Institute Migration Control Card (INGALA) must also be paid on arrival at a cost of USD \$20 per person. These amounts are subject to change and cannot be prepaid.

01.03.18 Galapagos Islands

(B/L)

Today enjoy an included full day tour to South Plaza Island, a small island located off the east coast of Santa Cruz Island. The island was formed from uplifted marine lava and is one of the smallest islands of the archipelago. Despite its small size, the island has a high concentration of wildlife. We will disembark in a small dock frequently occupied by sea lions and continue through a small forest of prickly pear cacti with their yellow flowers,

and hopefully some land iguanas waiting nearby for their fruits and flowers to fall to the ground. Finally we reach the cliff, where a shoal of the endemic yellow-tailed mullet can often be seen. The cliff is an excellent place to view swallow-tailed gulls, tropic bird, frigate birds and pelicans. Bull sea lions also usually congregate at the eastern end of the island. At the conclusion of the tour we are returned to our hotel on Santa Cruz Island.

03.03.18 The Tunnels, Galapagos Islands

(B/L) This morning after breakfast we will visit a unique place in the islands “Los Tuneles”. We commence with a 45 minute speedboat ride, with our experienced captain safely traversing the waves that normally hide this treasure. The Tunnels were formed millions of years ago when rivers of liquid lava ran across the island reaching the coast shore. The cold water froze their superficial layer isolating the interior, while liquid lava kept flowing into the sea. When the eruption finished, a hollow structure was formed and its wall later broke allowing water to come inside and create the tunnels as we see them today. Our guide will join us along hundreds of tunnels while we snorkel and discover the marine life such as sharks, lobsters, penguins, sea lions, boobies, marine turtles and other endemic species from the Galapagos Islands. If lucky, we will have a chance to see giant manta rays feeding in open waters. A snack will be served on board. At the conclusion of the visit we are returned to our hotel.

01.03.18 Australia - Santiago de Chile - Lima, Peru

Brisbane passengers depart at 6.30am on QF 507, arriving in Sydney at 9.05am.
Melbourne passengers depart at 7.45am on QF 402, arriving in Sydney at 9.10am.
Depart Sydney at 11.10am on LA 800, arriving in Santiago de Chile at 1.25pm the same day (this flight goes via Auckland).

Depart Santiago de Chile at 2.55pm on LA 642, arriving in Lima at 4.50pm.

Upon arrival in Lima we will be met by our guide and transferred to the hotel.

Lima is situated in the coastal desert district between the Pacific Ocean and the western hills of the Andes mountains. Lima seems to scare off some tourists because of its status as one of the biggest cities in the Americas. Lima runs at a slower pace however than many South American metropolises. Its rhythm is more traditional and its people reflect a steadier, calmer constitution. Lima's unusually amenable inhabitants give the metropolis the feeling at times of a cluster of smaller towns.

Every part of Lima has its own unique atmosphere. Downtown Lima is crowded and busy, both modern and colonial at the same time. The Plaza Mayor is considered one of the most beautiful plazas in Latin America. Most neighbourhoods around the centre are friendly and green, with many small parks and an unmistakable colonial touch, especially Jesus Maria and Magdalena del Mar.

The other heart of Lima is the uptown shopping and business area, Miraflores. Here you can find stylish avenues and fancy beaches. Close to Miraflores is the romantic village like district of Barranco, overlooking the Pacific.

This morning we have a half day city sightseeing tour of colonial and modern Lima. Included are Lima's most imposing colonial churches and mansions such as the Government Palace, the Plaza Mayor, the City Hall and the Cathedral, including the 17th century San Francisco Monastery. The tour ends with a visit to the modern suburb of San Isidro where we will visit the pre-Inca Pyramid of Huaca Huallamarca before continuing to Miraflores, overlooking the Pacific Ocean.

03.03.18 Lima - Puerto Maldonado - Refugio Amazonas, Peru

(B/L/D)

This morning we will be met by our guide from in hotel foyer and transferred to Lima Airport for our flight to Puerto Maldonado.

Depart Lima at 9.45am on LA 2075, arriving in Puerto Maldonado at 1.00pm (this flight goes via Cuzco). Upon arrival in Puerto Maldonado Airport we drop off our excess luggage for safekeeping. We then transfer to the Tambopata River Port, entering the native community of Infierno. We then have a 2½ hour boat ride past Infierno and the Tambopata National Reserve's Checkpoint and into the buffer zone of this 1.3 million hectare conservation unit. The boats used for transport are 20 foot long, roofed canoes with outboard motors. What to bring:

- Good binoculars
- Camera gear
- Tight-weave, light coloured long cotton pants
- Long sleeved tight-weave, light coloured cotton shirts

- Ankle high hiking boots and sneakers
- Flashlight with batteries
- Sunblock & sunglasses
- Broad brimmed hat
- Rain suit or poncho
- Insect repellent
- Small denomination bills
- Small daypack

Luggage is hand carried at various stages of the trip for long distances. We strongly recommend you limit your weight to 15 kg.

A remote settlement even for Peru, Puerto Maldonado is a frontier colonist town with strong links to the Cuzco region and a great fervour for bubbly jungle chicha music. With an economy based on gold panning and Brazil nut gathering from the rivers and forests of Madre de Dios, it has grown enormously over the last twenty years. From a small, laid-back outpost of civilisation to a busy market town, it has become the thriving, safe capital.

Refugio Amazonas is our 24 bedroom lodge opened in 2005 and built in a 200 hectare private reserve on the buffer zone of Tambopata National Reserve. The area provides excellent wildlife observation opportunities and a chance to immerse yourself in the local culture while staying in comfortable accommodation.

Upon arrival our lodge manager will welcome us and brief us with important navigation and security tips.

After dinner this evening we head out to the rivers edge and scan the shores in search of the red gleams of reflection from caiman eyes.

Note: There is a Tambopata National Reserve Fee applicable in the amount of USD \$13 per person.

Accommodation: Refugio Amazonas Lodge

04.03.18 (B/L/D)

Refugio Amazonas

A 2 hour hike takes us to Sachavacayoc Lake. We will then paddle around the lake in a catamaran, searching for the resident family of five giant river otters, which are seen by 30% of people who visit the lake. We also have the chance to see other lakeside wildlife such as caiman, hoatzin and horned screamers. We hike out at dawn, when otters are typically active, and then hike back to the lodge.

For those who do not wish to take the long hike, you may prefer to visit Condorado Lake, which is a 30 minute hike from the lodge.

After an included lunch we visit a farm and ethnobotanical garden. Five minutes downriver from the lodge lies a farm owned and managed by charismatic Don Manuel, from the neighbouring community of Condorado. He grows a variety of popular and unknown Amazon crops. Just about every plant and tree we see has a purpose. He has also identified and cultivated many of the medicinal plants used in the region in a little backyard garden.

Later we have an opportunity to hike a few minutes from the lodge to visit a beautiful old growth patch of Brazil nut forest that has been harvested for decades, if not centuries, and where the precarious remains of a camp that was used 2 months of the year by Brazil nut gatherers can be seen. We will explain the entire process from collection and transportation to drying.

After dinner we have a night walk, when most of the mammals are active but rarely seen. We will likely see frogs with shapes and sounds as bizarre as their natural history.

Refugio Amazonas

At dawn we have a 15 minute boat ride and 60 minute walk from Refugio Amazonas to the parrot clay lick, where we will see dozens of parrots and parakeets descend on most clear mornings to ingest the clay on a river bank. Species such as dusky headed and cobalt winged parakeets descend at this clay lick.

Following this we visit a mammal clay lick, which is a twenty minute walk from Refugio Amazonas. Wild rain forest pigs show up in herds of 5 – 20 to eat clay in the late morning. The chances of spotting them are approximately 15%, but well worth the short hike. We may also see other wildlife including deer, guans and parakeets.

After lunch we have a 30 minute walk from Refugio Amazonas to visit the 25 metre scaffolding canopy tower. The tower has been built upon high ground to increase your view of the continuous primary forest extending out towards Tambopata National Reserve. A bannistered staircase running through the middle provides safe access to the platforms above. From here views of bird species can be seen, including toucans, macaws and raptors.

This evening following dinner we have a Tambopata National Reserve lecture. These nightly lectures are prepared by the staff of Refugio Amazonas and cover topics such as conversation threats, and projects in the Tambopata National Reserve.

Refugio Amazonas - Puerto Maldonado - Cuzco - Sacred Valley, Peru

After breakfast we will be transferred by boat and road from the lodge to Puerto Maldonado. We collect our remaining luggage before heading to the airport in time for our flight.

Depart Puerto Maldonado at 1.45pm on LA 2074, arriving in Cuzco at 2.40pm. Upon arrival we are met and transferred to our hotel in the Sacred Valley.

Cuzco or Qosqo, was the capital of the Inca empire, one of the greatest planned societies the world has ever known, from the 11th to the early 16th century. Standing at 3310 metres above sea level, Cuzco has around 280,000 inhabitants, mostly descendants of the Quechua tribes. The city is remarkable for its many colonial churches, monasteries, convents and for its extensive Inca ruins. The heavy Incan influence can be seen on almost every street in the city centre with many remains of Inca walls, arches and doorways.

In the heart of the city is the Plaza de Armas, surrounded by colonial arcades and four churches. The cathedral from the early 17th century was built on the site of the Palace of the Viracocha. The cathedral is a fine example of colonial baroque art. Another church, the La Compania de Jesus was built on the site of the Palace of the Serpents (Amaru-cancha) and the interior is rich in murals, paintings and carved altars.

This evening meet your fellow travellers.

Santiago – Punta Arenas – Puerto Natales

We have a very early morning transfer to the airport for our flight to Punta Arenas. Depart Santiago at 5.15am on LA 281, arriving in Punta Arenas at 8.40am. Upon arrival we will be met and transferred to the bus terminal for a scheduled bus transfer to Puerto Natales (approximate travel time is 3 hours). Upon arrival in Puerto Natales we are transferred to the hotel for an overnight stay.

The Chilean city of Puerto Natales, capital of the Puerto Natales district, is located 362km from El Calafate, the last city in Argentina. Founded in 1911, Puerto Natales has a population of around 19,000 inhabitants. It is the capital city of the province of Ultima Esperanza and it is situated on the headland of a mild slope. It is the main access to beautiful landscapes such as the world famous Torres del Paine National Park, 'Cueva del Milodon' Natural Monument and Los Glaciares National Park in Argentina. Puerto Natales, whose name derives from the Latin term 'natalis' meaning 'birth' is located near the sea inlet called Senoret Channel, between Almirante Montt Gulf in the south and the Ultima Esperanza ('Last Hope') Fjord in the north. The latter was named by its discoverer, Juan de Ladrillero, who in 1557, was desperately trying to find the western exit of the Strait of Magellan. It was colonized by Chileans coming from the magical island of Chiloé who contributed with their labour to the development of cattle raising. This activity was initiated mostly by German and English colonists, who with great persistence, turned Patagonia into one of the main stockbreeding production and exporting areas in the world until the end of the seventies. The city has many cafes, restaurants and a casino, the southernmost in the world. It also has small and picturesque stores, a historical museum and many more tempting activities.

Puerto Natales – Torres del Paine National Park

Today we have a full day visit to Torres del Paine National Park and Milodon Cave. At Torres del Paine National Park we admire the wonderful flora and fauna and the beauty of the lakes against the imposing backdrop of the Andes Mountains. The tour includes a visit to the famous Milodon Cave with a boxed lunch and entrance fees for Milodon Cave and Paine National Park. Without a doubt, Paine Towers is one of the most spectacular mountain areas on earth. In the centre of the park is a granite massif from which rise the Torres (Towers) and the Cuernos (Horns) of Paine, oddly shaped peaks of over 2,600 metres. There are 15 peaks in the park above 2,000 metres, the highest of which is Cerro Paine Grande. The valleys are filled with beautiful lakes and the enormous Campo de Hielo Sur Icecap gives the park four main glaciers; Grey, Dickson, Zapata and Tyndall. Two other glaciers descend from the west side of the central massif. There is an abundance of wildlife in the park due to a micro-climate especially favourable to plants and wildlife. There are 105 species of birds including 18 species of waterfowl and 11 birds of prey. Particularly noteworthy are condors (which are quite common), black-necked swans, rheas, kelp geese, ibis, flamingos and austral parrots. There are also 25 species of mammals including guanacos, hares, foxes, huemules (a species of deer), pumas and skunk.

At the conclusion of the day we are transferred to our hotel for a two night stay.

28.03.18 Torres del Paine - El Calafate

(B) Today we are transferred by bus from the hotel in Torres del Paine and cross the border into Argentina en route to our hotel in El Calafate. Approximate travel time is four hours.

El Calafate is the centre of the tourist network in the deep south of mainland Argentinian Patagonia. It is one of the country's most visited tourist destinations. These offshoot attractions cluster around the tremendous bloated tuber of Lago Argentino, the greatest of all exclusively Argentinian lakes and the third biggest in all of South America. Lago Argentino has a surface area of 1600 square kilometres and is so deep that its temperature remains an almost constant at 8°C year round. When the weather is brighter, the lake soaks up the light of the Patagonian sky to reflect a glorious hue of polarized blue. Most of the lake is surrounded by harsh, rolling steppe, but the scenery becomes more interesting around its western tendrils. Transitional scrub and southern beech woodland press up to its shores and the snow-capped mountains that fringe the Southern Patagonian Icecap rear up behind.

Accommodation: Hosteria Los Hielos

29.03.18 El Calafate

(B) Today we have a full day tour to Perito Moreno Glacier including the National Park entrance fee. We depart from El Calafate bordering the southern arm of the Argentine Lake to get to Los Glaciares National Park. It is an 80km long bus ride, which means there will be lots of photo opportunities as the bus makes several stops. All the way a guide from Los Glaciares National Park will be with us, giving us all the information about the surroundings, the history and mysticism of this unique glacier. Perito Moreno Glacier is about 30,000 years old. Its surface is 192 square kilometres and the front wall is 5km long, with some of its peaks 80 metres in height. The deep blue base is almost as dark as the water that surrounds it. The deep silence is suddenly interrupted by the tremendous noise of huge pieces of ice that crack from the glacier and fall into the lake to float on the Canal de los Tempanos (Icebergs Channel). The continuous advance of the glacier eventually separates this channel from the rest of the Lake. As the channel is its only communication with the rest of the lakes in the area, the lake grows to reach over 30 metres above its normal level and floods the surrounding areas. Such pressure opens a tunnel in the ice wall forming an arch that eventually collapses in the world famous 'breaking of the glacier'. This spectacle used to take place every 4 years but due to the planet heating it hasn't happened in the last 10 years. For those who wish to get a closer look at these majestic glacier walls, there is an optional tour available with experienced guides.

Accommodation: Hosteria Los Hielos

30.03.18 El Calafate – San Carlos de Bariloche

Approaching from the north, we can appreciate the mountain backdrop of the holiday capital of Argentinean Patagonia, Bariloche, spread along the dry south eastern shores

of Lago Nahuel Huapi. It banks up against the slopes of Cerro Otto, behind which rear the spiky crests of the Cerro Catedral Massif. Everything in town faces the lake, an impressive expanse of water that can seem like a benign Mediterranean one moment and a froth of seething whitecaps the next, lashed by the sometimes icy winds.

Please note: There is an ecotax for passengers staying in Bariloche hotels, which varies from 5 – 60 Argentine Pesos per person, per night (approx \$1 - \$3 USD). This amount is payable in cash, directly to the hotel.

The road winds along Lake Moreno to a panoramic point which offers breathtaking views of Lake Moreno, Lake Nahuel Huapi, Victoria Island and the Andes in all their splendour. We will have an opportunity for an optional stop at Cerro Companario to take the chair lift (additional cost) to the summit for a wonderful panorama of the surrounding area.

There is time for an optional lunch (not included in cost) at a cosy restaurant. Afterwards we commence our bus trip to Puerto Alegre, which borders the Frias River. We enjoy a short cruise of the lake from where we can see Tronador Hill. Upon arrival at Puerto Frias we clear Argentine customs and proceed by bus through lush Andean vegetation to the Vicente Perez Rosales pass. We proceed through Chilean customs and then have a short ride to board the Lagos Andinos Catamaran. We set out to cross the waters of Todos Los Santos Lake. We then continue by bus to Puerto Varas, travelling past Lake Llanquihue along the way. Upon arrival at the Lakes Crossing Office, we are met and transferred to our hotel.
