02.03.20 Australia - Santiago de Chile - Lima, Peru

Brisbane passengers depart at 6.35am on Qantas flight QF 507, arriving in Sydney at 9.10am. Melbourne passengers depart at 7.00am on Qantas flight QF 408, arriving in Sydney at 8.25am.

All passengers depart Sydney at 11.10am on Latam Airlines flight LA 800, arriving in Santiago de Chile at 1.25pm the same day. You cross the International Date Line. (This flight goes via Auckland).

All passengers then depart Santiago at 3.05pm on LA 642, arriving in Lima at 4.55pm. Upon arrival we are met and transferred to the hotel.

Lima is situated in the coastal desert district between the Pacific Ocean and the western hills of the Andes Mountains. Lima seems to scare off some tourists because of its status as one of the biggest cities in the Americas, however Lima runs at a slower pace than many South American metropolises. Its rhythm is more traditional and its people reflect a steadier, calmer constitution. Lima's unusually amenable inhabitants give the metropolis the feeling, at times, of a cluster of smaller towns. Lima's physical atmosphere is slightly dreamlike, mostly because of the garua, a mist that settles over the city between May and October. Under its blanket, Lima's inhabitants meet at the penas (bars offering folk and Creole music), shop at the open market places and dine at Lima's celebrated restaurants. Several museums display and preserve Peru's golden past, including most notably the internationally famed Museo Nacional de Antropologica y Arqueologica and the Museo de Oro, the stunning museum of gold. Every part of Lima has its own unique atmosphere. Downtown Lima is crowded and busy, both modern and colonial at the same time. The Plaza Mayor is considered one of the most beautiful plazas in Latin America. Most neighbourhoods around the centre are friendly and green, with many small parks and an unmistakable colonial touch, especially Jesus Maria and Magdalena del Mar. The other heart of Lima is the uptown shopping and business area, Miraflores. Here you can find stylish avenues and fancy beaches. Close to Miraflores is the romantic, village-like district of Barranco, overlooking the Pacific.

Accommodation: Casa Andina Standard Miraflores Centro Hotel

03.03.20 Lima - Cuzco - Sacred Valley, Peru

(B) Today there is a three hour sightseeing tour which offers the best of colonial and modern Lima. Starting in the districts of Miraflores and San Isidro, we pass a Huaca or sacred pre-Inca site. There will be a stop at Parque del Amor in Miraflores for its magnificent view over the Pacific Ocean. The tour also includes sightseeing in the historic centre, including the Main Square, where the Presidential Palace, the Archbishop's Palace, the Municipality of Lima and the Cathedral are located. We will visit one of the largest colonial-era convents.

Afterwards we are transferred to the airport for our flight to Cuzco. Upon arrival we will be transferred to our hotel in the Sacred Valley.

Note: Cuzco has a high altitude of 3310m which can cause breathing to be a problem. To combat the effect of the high altitude it is suggested you drink plenty of liquids on your first couple of days. Most people are fine, but some experience headaches, vomiting, dizziness. Cocoa tea is a wonder. Check out the website www.high-altitude-medicine.com

Accommodation: San Agustin Monasterio de la Recoleta Boutique Hotel

04.03.20 Sacred Valley, Peru

(B/L) Today we have a tour to Chinchero Market, Misminay and Ollantaytambo. We begin the tour at Chinchero, 35kms north west of Cuzco, whose townsfolk are famous for having preserved

traditional Andean weaving techniques which we will see during a demonstration. Next we visit the village of Misminay, with a population of 500 families and located at an elevation of 3,700 metres. From this height we should have an incredible view of the Sacred Valley. The villages will share with us their traditional Andean way of life. Lunch is included in Misminay, before we continue to Ollantaytambo. Here we can climb some steep stone steps to admire the astonishing monoliths that make up the Temple of the Sun. Later we are returned to our hotel.

NOTE: On the 5th March there is a rail trip to Machu Picchu, which has a luggage restriction of 5kg and 157cm (height + length + width) per person. Taking all of your luggage will incur an excess baggage charge of USD \$5 per kilo. We recommend packing a small bag for the next night, and the rest of the luggage will be driven back and stored in your Cuzco hotel at no charge.

05.03.20 Sacred Valley - Machu Picchu, Peru

(B/L/D) This morning we transfer to Ollantaytambo Railway Station to board the Vista Dome train for the rail service to Aguas Calientes Station and then a bus to Machu Picchu, the fabled city of the Incas. The joy of visiting Machu Picchu is not limited to the ruins themselves. After leaving Ollantaytambo, the railway enters the beginnings of a gorge, which grows narrower and deeper. The vegetation grows more prolific. We are entering the 'eyebrow of the jungle', and finally reach Aguas Calientes Station, 1.5 kilometres below Machu Picchu.

When Hiram Bingham rediscovered Machu Picchu in 1911, he mistakenly thought he had found the location of Vilcabamba, the lost city of the Incas. The true site of Vilcabamba was actually discovered by Gene Savoy in 1964. So, what was Machu Picchu? Many people say it was a secret refuge. The Incas actually had no written language but they have oral history records. However, the existence of Machu Picchu and the region seems to be entirely erased from official memory.

Was it a Royal Residence? A site of spiritual and ceremonial significance? or was it used for defence from the fierce jungle tribes? Garcia de Loyola mentioned an Inca fortress that was 'on a high eminence surrounded by rugged crags and jungles, very dangerous to ascend and almost impregnable'. Most visitors to Peru see Machu Picchu, which is perched on a narrow saddle of rock high above a hairpin curve of the Urubamba. The granite sugar loaf of Huayna Picchu towers above the ruin and shrouds of low clammy cloud often grip the surrounding forested hillsides. Such scenery makes Machu Picchu one of the world's most beautiful ruins.

Our local guide will take us through the ruins. We then have lunch at the Sanctuary Lodge Restaurant. After lunch we take the bus to the town of Aguas Calientes for an overnight stay. Dinner this evening is included.

Accommodation: Inkaterra El Mapi Hotel

06.03.20 Machu Picchu - Cuzco, Peru

(B) This morning is at leisure. If you wish to visit Machu Picchu once again or climb the Huayna Picchu Mountain, you will need to contact us well in advance to pre purchase your entrance ticket. Huayna Picchu Mountain (The Young Mountain) is the famous mountain you can see in front of the citadel, appearing in most of the usual vistas of this amazing place. Only 400 passengers are permitted to climb this mountain daily and it is restricted to two time schedules of 7am and 11am.

In the afternoon we take the train to Cuzco, where we are met and transferred to the hotel.

Note: The entrance fees and bus fees for the second day to Machu Picchu are not included.

Accommodation: Casa Andina Standard Cathedral Cuzco

07.03.20 Cuzco, Peru

(B) Cuzco is one of the most famous cities in South America, as it is the oldest continuously inhabited metropolis on this continent. The city itself was probably founded in 1000BC, but in 1534 the Spanish Conquerors re-founded it according to the European way. Wherever we stop in Cuzco we will find remains of ancient civilizations as this was the capital of the Incas and the place where most of their superb works were done. This city is considered as the archaeological capital of South America and has been declared by UNESCO a Cultural Heritage Site.

Our half day city tour will commence at the Qoricancha Temple, an ancient Inca palace and main worship centre of the Sun God. Then we tour the Plaza de Armas, where the cathedral and the beautiful Church of the Society of Jesus are located. We will continue to the colonial church of San Cristobal to enjoy a spectacular view of the city. We proceed to the famous fortress of Sacsahuaman, an Inca building known for its massive walls of hewn stone and its hilltop location. Later we visit the important archaeological complexes of Q'enqo and Puca Pucara.

Accommodation: Casa Andina Standard Catedral Cuzco

08.03.20 Cuzco - Puno, Peru

(B/L) We will be picked up from the hotel and transferred to the railway station in Cuzco for our train journey between Cuzco and Lake Titicaca aboard our first class train. This spectacular rail journey travels south from Cuzco, gently climbing to higher and colder altitudes. The first half of the journey is dominated by magnificent Andean mountains which tower over the deep valleys of the meandering Huatanay River. It then reaches the gentler, rolling Andean Plains, where vicunas and alpacas can be seen. We enjoy an excellent three course lunch on board the train, followed by coffee served in the observation car. A stop is made at La Raya Pass, at 4,321 metres. This is the highest point on the journey. Continue southward until arriving in Puno.

Puno was the territory of the Tiahuanacos (800A.D. - 1200A.D.) who were the highest cultural expression of the Aymara people that established themselves in what is today Peru and Bolivia. The Incas took over these lands in the fifteenth century and the Spanish, attracted by the mining industry which developed there, left an important colonial legacy throughout the entire area.

The city of Puno, with an altitude of 3280 metres, is situated on the shores of Lake Titicaca, the highest navigable lake in the world and the site of the Feast of the Virgen de la Candelaria. The lake contains numerous islands whose inhabitants continue to live as their ancestors have in custom and tradition. The Uros are an example of this. This group lives on 'floating islands' that they have artificially made entirely of totora reeds and they navigate in their traditional boats also made out of totora reeds. Taquile, Suasi and Amantani are known for their kindness, their ancestral skill in weaving, their pre-Columbian constructions and their lovely countryside. The Titicaca National Reserve (36,180 hectares) protects extensive stretches of totora reeds and various species of plants and animals.

After alighting the train, we are transferred to our hotel.

Accommodation: Casa Andina Premium Collection

09.03.20 Puno, Peru

(B/L) Today we have a tour to Taquile and Uros Islands to experience the Andean culture. We begin by arriving at Huayllano Port on Taquile Island and visit the house of a local family to engage in some activities with them, such as weaving. Afterwards we enjoy lunch made from fresh local products. Next we walk to the town square and board our boat to sail to Uros Island. The lives of the Uros Indians are dependent upon the totora reeds. Their boats, their houses and even their islands are made from these reeds. The Uros on the islands have intermarried with the Aymara and no pure Uros exist. The present Puno Bay people still practise some

Uros traditions, but Aymara influence predominates. The people are friendly, but very poor.
Accommodation: Casa Andina Premium Collection

10.03.20 Puno - La Paz, Bolivia

(B/L) Today we cross from Peru into Bolivia, via the lovely lakeside village of Copacabana. We will have an early land transfer to Copacabana Sanctuary and then board the catamaran cruise ship. We sail to Sun Island, the legendary birth place of the Inca Empire. Visit the Inca Garden, steps and fountain, then the Inti Wata Cultural Complex including the Underground Museum, the Titicaca Reed Shipbuilders Display Centre, the Pachamama agricultural Inca terraces, a handicraft centre, the Intica lounge and the Manco Kapac lookout and see the largest variety of Andean cameloids. The Inti Wata Complex at Sun Island includes a unique sailing experience aboard a huge Titicaca traditional vessel to enjoy a panoramic visit of the Pilkakaina Inca Palace. Afterwards we reboard the catamaran and enjoy a buffet lunch while sailing to La Paz.

La Paz must qualify as one of the world's most dramatically located cities. It lies sheltered from cold winds within a steep canyon, just below the rim of the altiplano. The city's skyline is dominated with huge office blocks and the snow covered peaks of Mount Illamani (6439m). La Paz today is a vibrant city, growing and expanding in all directions. 'Pacenos' as the locals are called, are quite traditional, maintaining strong ties with their indigenous ancestry. Interesting attractions include typical Indian markets, cathedrals and historical monuments.
Accommodation: La Casona Hotel Boutique

11.03.20 La Paz, Bolivia

(B) Today there is a half day city tour of La Paz and Moon Valley. We will visit the famous Witch Doctor's Market, the San Francisco Colonial Church and craft shops on Sagarnaga Street. The tour continues to Murillo Square where the Cathedral, the Government Palace and Parliament buildings are located. Then, visit the famous colonial street Calle Jaen, where interesting museums are clustered together. This is followed by a visit to the replica of the semi-subterranean temple of the Tiwanaku culture. For a change of scenery, the tour continues to residential areas of Obrajes, Calacoto and Florida. The tour ends with a visit to the unique Moon Valley where we can take a short hike and visit a ceramic workshop with a demonstration of this art.

The deep flowing waters of the river fall from a height of 70 metres through 275 falls over 2.7kms. The frontier with Brazil goes through the Garganta del Diablo (Devils Throat) where the falling water gives the illusion of magic rainbows.

Today we will embark on a half day guided tour walking along the many tracks on the side of the river and observing the falls from platforms that bring us close to the water. The Iguazu River flows east west for 808 miles and then drops suddenly and violently into a 262 foot abyss at the falls, which is set amidst jungle.

Although essentially a modern capital, it still has some beautiful historic colonial buildings dating from the 16th century. The fourth and present building was completed in 1775. We will pass the main post office, erected in 1882 using some of the walls from the former Governor's Palace in colonial times, the pedestrian streets of Huerfanos and Ahumada, indisputably the social, commercial and functional axis of Santiago, the prestigious Social Union Club, the National Library and Santa Lucia Hill, the site of the foundation of Santiago on February 12, 1541. Head towards Bellavista district. This area is home to many of Santiago's artisans and is lined with galleries, as well as open-air cafes, restaurants and nightlife. 27.02.20 Guayaquil – Baltra – Santa Cruz Island, Galapagos Islands

(B/L)

This morning we are transferred to the airport for our flight to the Galapagos Islands. Please note that luggage is restricted to 20kg only for these flights.

A trip to Ecuador is not complete if a visit is not made to the Galapagos Archipelago, located almost 1,000 kilometres from the Ecuadorian continental coastline. Made up of 13 large islands, 17 small ones and 47 rocky islets, the archipelago covers an area of 8,000 square kilometres.

The islands were discovered in 1535 by Brother Tomas de Berlanga. Declared a National Park in 1959, the Charles Darwin Foundation was also organised in this year to commemorate the islands link with the evolutionary scientist. The province of Galapagos was legally created in 1973 and it was declared a "Natural Heritage of Humanity" by UNESCO in 1979.

Each year tourists flock to the islands attracted by the natural surroundings and the unique flora and fauna, often not found anywhere else in the entire world. The environment is informal and itineraries are planned so that two or more visits may be made daily to the islands.

Upon arrival in Baltra we take a shuttle to Santa Cruz Island and head for the highlands, with its green vegetation. We stop at a ranch to see the giant turtles in their natural habitat. We have lunch at the ranch, before continuing to Charles Darwin Station, located on the south side of Santa Cruz Island.

Please note: A Galapagos National Institute Migration Control Card (INGALA) must be paid on arrival at a cost of USD \$20 per person. This amount is subject to change.

Accommodation: Ikala Galapagos Suites

28.02.20 Galapagos Islands (Bartholomew)

(B/L)

Early this morning we transfer back to Baltra to start our first navigable tour to Bartholomew, with breakfast on board. Bartholomew is a small island located next to Santiago Island. One of the islands' principal attractions is the Pinnacle Rock. In order to see the rock at its best, we have an easy hike for approximately one hour. In this excursion we will learn about the volcanic landscape of the island and see different species such as lava lizard or cacti. Once we reach the top we have a magnificent view of the rock, in contrast with the volcanic landscape and the turquoise waters of the surrounding beaches.

After the excursion we will proceed to do some snorkelling in one of the coral beaches of the area. If we are lucky we will see marine turtles, sea lions, multicoloured fish and penguins. Lunch is on board. In the afternoon we return to our hotel.

Accommodation: Ikala Galapagos Suites

29.02.20 Galapagos Islands (Isabela Island)

(B) After breakfast we have a ferry transfer to Isabela Island. In the afternoon we have a visit to Laguna de los Flamings for an opportunity to see the pink flamingos. Our journey will continue to the Tintoreras Islets, located a short distance from Puerto Villamil. This area is home to a variety of wildlife and the turquoise crystalline waters are inhabited by white-tipped reef sharks, Galapagos penguins, marine turtles and sea lions. One of its beaches, surrounded by mangroves, is one of the few sites where marine iguanas can reproduce successfully.

At the conclusion of the visit are transferred to our hotel for a two night stay.

Accommodation: Casa de Marita

01.03.20 Galapagos Islands (Isabela Island)

(B/L) This morning after breakfast, we will visit a unique place in the islands "Los Tuneles". We commence with a 45 minute speedboat ride, with our experienced captain safely traversing the waves that normally hide this treasure. The tunnels were formed millions of years ago when rivers of liquid lava ran across the island reaching the coast shore. The cold water froze their superficial layer isolating the interior, while liquid lava kept flowing into the sea. When the eruption finished, a hollow structure was formed and its wall later broke allowing water to come inside and create the tunnels as we see them today. Our guide will join us along hundreds of tunnels while we snorkel and discover the marine life such as sharks, lobsters, penguins, sea lions, boobies, marine turtles and other endemic species from the Galapagos Islands. If lucky, we will have a chance to see giant manta rays feeding in open waters. A snack will be served on board. At the conclusion of the visit we are returned to our hotel.

Accommodation: Casa de Marita

02.03.20 Galapagos Islands – Quito – Lima, Peru

27.02.20 Australia - Santiago de Chile - Lima, Peru

Melbourne passengers depart at 7.00am on Qantas flight QF 408, arriving in Sydney at 8.25am.

Brisbane passengers depart at 6.35am on Qantas flight QF 507, arriving in Sydney at 9.10am.

Depart Sydney at 11.10am on LA 800, arriving in Santiago de Chile at 1.25pm the same day (You cross the International Date Line - this flight goes via Auckland).

Depart Santiago de Chile at 3.05pm on LA 642, arriving in Lima at 4.55pm.

Upon arrival in Lima we will be met by our guide and transferred to the hotel.

Lima is situated in the coastal desert district between the Pacific Ocean and the western hills of the Andes mountains. Lima seems to scare off some tourists because of its status as one of the biggest cities in the Americas. Lima runs at a slower pace however than many South American metropolises. Its rhythm is more traditional and its people reflect a steadier, calmer constitution. Lima's unusually amenable inhabitants give the metropolis the feeling at times of a cluster of smaller towns.

Every part of Lima has its own unique atmosphere. Downtown Lima is crowded and busy, both modern and colonial at the same time. The Plaza Mayor is considered one of the most beautiful plazas in Latin America. Most neighbourhoods around the centre are friendly and green, with many small parks and an unmistakable colonial touch, especially Jesus Maria and Magdalena del Mar.

The other heart of Lima is the uptown shopping and business area, Miraflores. Here you can find stylish avenues and fancy beaches. Close to Miraflores is the romantic village like district of Barranco, overlooking the Pacific.

Accommodation: Casa Andina Standard Miraflores Centro Hotel

28.02.20 Lima

(B)

Today there is a three hour sightseeing tour which offers the best of colonial and modern Lima. Starting in the districts of Miraflores and San Isidro, we pass a Huaca or sacred pre-Inca site. There will be a stop at Parque del Amor in Miraflores for its magnificent view over the Pacific Ocean. The tour also includes sightseeing in the historic centre, including the Main Square, where the Presidential Palace, the Archbishop's Palace, the Municipality of Lima and the Cathedral are located. We will visit one of the largest colonial-era convents.

29.02.20 Lima - Puerto Maldonado – Posada Amazonas, Peru

(B/L/D)

This morning we will be met by our guide in the hotel foyer and transferred to Lima Airport for our flight to Puerto Maldonado.

Depart Lima at 9.55am on LA 2075, arriving in Puerto Maldonado at 1.00pm (this flight goes via Cuzco). Upon arrival in Puerto Maldonado Airport we drop off our excess luggage for safekeeping. We then transfer to the Tambopata River Port, entering the native community of Infierno, and have a 45 minute boat ride to Posada Amazonas. What to bring:

- Good binoculars
- Camera gear
- Tight-weave, light coloured long cotton pants

- Long sleeved tight-weave, light coloured cotton shirts
- Ankle high hiking boots and sneakers
- Flashlight with batteries
- Sunblock & sunglasses
- Broad brimmed hat
- Rain suit or poncho
- Insect repellent
- Small denomination bills
- Small daypack

Luggage is hand carried at various stages of the trip for long distances. We strongly recommend you limit your weight to 15 kg.

A remote settlement even for Peru, Puerto Maldonado is a frontier colonist town with strong links to the Cuzco region and a great fervour for bubbly jungle chicha music. With an economy based on gold panning and Brazil nut gathering from the rivers and forests of Madre de Dios, it has grown enormously over the last twenty years. From a small, laid-back outpost of civilisation to a busy market town, it has become the thriving, safe capital.

Posada Amazonas is a 30 bedroom lodge owned by the local community of Infierno and built within the 2,000 hectare private communal reserve. Thanks to its location and accessibility to nearby reserves, Posada Amazonas provides excellent wildlife observation opportunities and a chance to immerse ourselves in the local culture while staying in comfortable accommodation.

Upon arrival our lodge manager will welcome us and brief us with important navigation and security tips.

Later today we have a twenty minute walk from Posada Amazonas to the 30 metre scaffolding canopy tower. A bannistered staircase running through the middle provides safe access to the platforms above. From atop there are spectacular views of the vast expanses of forest cut by the Tambopata River winding through the middle. We may see toucans, parrots or macaws flying on the horizon.

After dinner this evening we have a presentation on the Infierno ecotourism project.

Note: There is a Tambopata National Reserve Fee applicable in the amount of USD \$13 per person.

Accommodation: Posada Amazonas Jungle Lodge

01.03.20 Posada Amazonas

(B/L/D)

After breakfast we will visit the Tres Chimbadas oxbow lake. After a 30 minute boat ride and 45 minute hike we will board the catamaran to explore the lake. There is a resident family of nine giant river otters living here (60% of lake visitors see them) and other wildlife such as caimans, hoatzin and horned screamers to look for. We return to the lodge for lunch before embarking on our afternoon outing. We take a 20 minute boat ride downriver to visit the community's ethno botanical centre. The Centro Nape is a communal organisation that produces medicines out of forest plants and administers them to patients who choose their little clinic. They have produced a trail which explains the different medicinal and other uses of selected plants.

We return to Posada Amazonas for dinner. You may wish to join an optional night walk to look for amphibians and insects. Mammals are active but rarely seen at this time.

Accommodation: Posada Amazonas Jungle Lodge

02.03.20 Posada Amazonas

(B/L/D)

At dawn we have a 20 minute walk out to the Parrot Clay lick, where we will see dozens of parrots and parakeets descend on most clear mornings to ingest the clay on a

river bank. This clay lick is most active at dawn and in the late morning and mid afternoon and species of Mealy and Yellow headed Amazon, Blue-headed parrots as well as Dusky Parakeets are known to frequent here.

After breakfast we will embark on a two hour hike crowned by the largest tree in the vicinity, a giant ceiba tree. During the hike, the specialist guides will focus on the natural history of the rainforest and its principal taxonomic groups. After lunch we have a 30 minute boat ride down river to visit a farm in the community of Infierno. The owner grows a diverse variety of popular and unknown Amazon crops. In his garden, just about every plant and tree serves a purpose. Dinner this evening is at the lodge.

03.03.20 Posada Amazonas - Puerto Maldonado - Cuzco - Sacred Valley, Peru

(B) After breakfast we will be transferred by boat and road from the lodge to Puerto Maldonado. We collect our remaining luggage before heading to the airport in time for our flight.

Depart Puerto Maldonado at 1.50pm on LA 2074, arriving in Cuzco at 2.35pm. Upon arrival we are met and transferred to our hotel in the Sacred Valley.

Cuzco or Qosqo, was the capital of the Inca empire, one of the greatest planned societies the world has ever known, from the 11th to the early 16th century. Standing at 3310 metres above sea level, Cuzco has around 280,000 inhabitants, mostly descendants of the Quechua tribes. The city is remarkable for its many colonial churches, monasteries, convents and for its extensive Inca ruins. The heavy Incan influence can be seen on almost every street in the city centre with many remains of Inca walls, arches and doorways.

This evening meet your fellow travellers.

22.03.20 Santiago – Punta Arenas – Puerto Natales

(B)

This morning we transfer to Santiago airport for our flight to Punta Arenas. Depart Santiago at 10.35am on LA 293, arriving in Punta Arenas at 2.00pm. Upon arrival we will be met and transferred to the bus terminal for a scheduled bus transfer to Puerto Natales (approximate travel time is 3 hours). Upon arrival in Puerto Natales we are transferred to the hotel for an overnight stay.

The Chilean city of Puerto Natales, capital of the Puerto Natales district, is located 362km from El Calafate, the last city in Argentina. Founded in 1911, Puerto Natales has a population of around 19,000 inhabitants. It is the capital city of the province of Ultima Esperanza and it is situated on the headland of a mild slope. It is the main access to beautiful landscapes such as the world famous Torres del Paine National Park, 'Cueva del Milodon' Natural Monument and Los Glaciares National Park in Argentina. The city has many cafes and restaurants. It also has small and picturesque stores, a historical museum and many more tempting activities.

Accommodation: Vendaval Hotel

23.03.20 Puerto Natales – Torres del Paine National Park

(B/L)

Today we have a full day visit to Torres del Paine National Park and Milodon Cave. At Torres del Paine National Park we admire the wonderful flora and fauna and the beauty of the lakes against the imposing backdrop of the Andes Mountains. The tour includes a visit to the famous Milodon Cave with a boxed lunch and entrance fees for Milodon Cave and Paine National Park. Without a doubt, Paine Towers is one of the most spectacular mountain areas on earth. In the centre of the park is a granite massif from which rise the Torres (Towers) and the Cuernos (Horns) of Paine, oddly shaped peaks of over 2,600 metres. There are 15 peaks in the park above 2,000 metres, the highest of which is Cerro Paine Grande. The valleys are filled with beautiful lakes and the enormous Campo de Hielo Sur Icecap gives the park four main glaciers; Grey, Dickson, Zapata and Tyndall. Two other glaciers descend from the west side of the central massif. There is an abundance of wildlife in the park due to a micro-climate especially favourable to plants and wildlife. There are 105 species of birds including 18 species of waterfowl and 11 birds of prey. Particularly noteworthy are condors (which are quite common), black-necked swans, rheas, kelp geese, ibis, flamingos and austral parrots. There are also 25 species of mammals including guanacos, hares, foxes, huemules (a species of deer), pumas and skunk.

At the conclusion of the day we are transferred to our hotel for a two night stay.

Accommodation: Hosteria Lago Grey

24.03.20 Torres del Paine

(B)

Today is at leisure to relax, explore on your own, or enjoy the optional activities offered by the lodge.

Accommodation: Hosteria Lago Grey

25.03.20 Torres del Paine – Puerto Natales – El Calafate

(B)

Today we are collected from the hotel and transferred to Puerto Natales bus terminal for the scheduled bus service to El Calafate. En route we cross the border into

Argentina. Approximate travel time is four hours. Upon arrival at El Calafate bus terminal we are met and transferred to our accommodation for a two night stay. El Calafate is the centre of the tourist network in the deep south of mainland Argentinian Patagonia. It is one of the country's most visited tourist destinations. These offshoot attractions cluster around the tremendous bloated tuber of Lago Argentino, the greatest of all exclusively Argentinian lakes and the third biggest in all of South America. Lago Argentino has a surface area of 1600 square kilometres and is so deep that its temperature remains an almost constant at 8°C year round. When the weather is brighter, the lake soaks up the light of the Patagonian sky to reflect a glorious hue of polarized blue. Most of the lake is surrounded by harsh, rolling steppe, but the scenery becomes more interesting around its western tendrils. Transitional scrub and southern beech woodland press up to its shores and the snow-capped mountains that fringe the Southern Patagonian Icecap rear up behind.
Accommodation: Calafate Parque Hotel

26.03.20 El Calafate

(B)

Today we have a full day tour to Perito Moreno Glacier including the National Park entrance fee. We depart from El Calafate bordering the southern arm of the Argentine Lake to get to Los Glaciares National Park. It is an 80km long bus ride, which means there will be lots of photo opportunities as the bus makes several stops. All the way a guide from Los Glaciares National Park will be with us, giving us all the information about the surroundings, the history and mysticism of this unique glacier. Perito Moreno Glacier is about 30,000 years old. Its surface is 192 square kilometres and the front wall is 5km long, with some of its peaks 80 metres in height. The deep blue base is almost as dark as the water that surrounds it. The deep silence is suddenly interrupted by the tremendous noise of huge pieces of ice that crack from the glacier and fall into the lake to float on the Canal de los Tempanos (Icebergs Channel). The continuous advance of the glacier eventually separates this channel from the rest of the Lake. As the channel is its only communication with the rest of the lakes in the area, the lake grows to reach over 30 metres above its normal level and floods the surrounding areas. Such pressure opens a tunnel in the ice wall forming an arch that eventually collapses in the world famous 'breaking of the glacier'. This spectacle used to take place every 4 years but due to the planet heating it hasn't happened in the last 10 years. In order to get a closer look at this majestic glacier, our boat departs from Port Bajo de las Sombras inside the national park and sails along the Brazo Chico on Argentino Lake towards the Northern Wall of the Perito Moreno glacier. For almost an hour you will sail along the 70m wall getting an amazing view of the falling ice and a superb perspective of the entire glacier.

Accommodation: Calafate Parque Hotel

27.03.20 El Calafate – San Carlos de Bariloche

(B)

Today we are transferred to El Calafate Airport for our flight to Bariloche with Aerolineas Argentinas. Upon arrival we are transferred to the hotel for a two night stay.

Approaching from the north, we can appreciate the mountain backdrop of the holiday capital of Argentinean Patagonia, Bariloche, spread along the dry south eastern shores of Lago Nahuel Huapi. It banks up against the slopes of Cerro Otto, behind which rear the spiky crests of the Cerro Cathedral Massif. Everything in town faces the lake, an impressive expanse of water that can seem like a benign Mediterranean one moment and a froth of seething whitecaps the next, lashed by the sometimes icy winds.

Please note: There is an ecotax for passengers staying in Bariloche hotels, which varies from 80 – 100 Argentine Pesos per person, per night (approx \$2 - \$3 USD). This

amount is payable in cash, directly to the hotel.
