Tour Difficulty Ratings & Advice

To ensure that you select the right tour for you, Macleay Valley Travel has provided a clear set of tour difficulty and fitness recommendations for our tours. The ratings, from 1, being the easiest, to 5 the most strenuous, will give you a good idea of what is reasonably required for you to be able to participate on each tour. Most tours require a moderate to good level of fitness, however there are others that are quite challenging. For your enjoyment of the tour, and also the enjoyment of your fellow travellers, please consider whether or not the suggested difficulty level for the tour you are interested in is compatible with your health and fitness.

1	2	3	4	5
---	---	---	---	---

Tour Difficulty Level 4

This tour rating typically involves an above average level of physical activity, such as ascending stairs, getting into a bathtub shower, being responsible for your own luggage at airports and hotels, boarding trains quickly, walking distances of up to 2 kilometres at a time over possible uneven ground and/or cobblestone streets and being capable of doing this with your own luggage. Walking tours of considerable distances should be expected on tours with this rating as well as some early departures. The extreme weather can make this tour considerably more difficult that what you may expect. Unfortunately this tour rating is not recommended for individuals who cannot walk unaided or who are unsteady on their feet.

USEFUL INFORMATION FOR THE TOUR

The tour will take place during winter and the weather will be extremely cold. So cold in fact, that regular cold weather clothes will be insufficient to adequately protect you from the extreme temperatures. It is important that passengers pack appropriately for this extreme weather. We suggest at least a 'Down' warm coat, UGG boots, thermals and warm socks, gloves, scarves, beanies etc. On the tour you will likely encounter deep, wet snow which can be slippery in parts. You may wish to bring walking sticks suitable for navigating through snow and slippery conditions.

It should be possible to buy extra warm clothing whilst on the tour, but it is important for you not to rely on this and bring sufficient warm clothing. During the night the temperatures can range from -20 to -30 degrees Celsius.

Pack a Warm Coat

Harbiners who are used to brutal winters wear coats made of fur, wool, or other insulating materials. Unfortunately, these coats can be bulky, heavy, and expensive. You may be better off purchasing a good quality 'Down' coat that can be flattened to fit into your luggage. Any coat you do buy should be longer than waist length and windproof. To pack a down jacket (or other coat), find a large sealable bag. After placing the coat in the bag, press all of the air out and seal the bag. This will save you space in your suitcase.

Don't Forget a Hat

The traditional Chinese Northeastern-style fur hat complete with ear flaps doesn't only represent a funny stereotype. These hats are designed to protect the wearer's head and ears from the bitter cold weather. Some sort of head covering will be essential for winter travel to Harbin. Choose a hat or beanie for its practical qualities. You may find that the traditional style hat, or a version of it, offers both protection and style.

Wear Snow Boots or Waterproof Shoes

A pair of warm, comfortable boots is very important to take with you when you travel to Harbin. The coldest months in Harbin can see heavy snowfall. Whether wet or dry, the snow can be deep and may not melt off until spring. Make sure the boots you take cover the ankle so that you don't get wet feet while trudging around in the snow.

Boots or shoes are best purchased well before traveling to Harbin during the winter so that they can be broken in. They should be comfortable enough to walk in and able to accommodate your feet and thick socks.

Gloves

One-size-fits all gloves that cost a few dollars won't keep your fingers from freezing as you visit the parks in Harbin. Purchase well-insulated gloves made of quality materials that fit well and cover the wrists.

Scarf

A woolen scarf tucked into your coat can protect your neck and throat and block chilly winds. However it is better to have a coat with a high collar than to depend upon a scarf to protect your neck from the cold. If you don't have a coat with a high collar, bring along a scarf that is long and warm enough to be useful against the weather.

Layers

Harbin uses a centralised heating system to heat residential buildings, so despite bitter winters, the temperature can be quite hot indoors. While you'll need to wear warm clothing when going outside, you'll want to be comfortable inside. The best way to insure that you don't freeze while outside and don't boil inside is to wear sweaters that can be removed if opening the windows doesn't cool off the room enough for comfort's sake. We usually do not return to the hotel prior to dinner so you will not need to pack much evening wear. A couple of lighter tops for flights and hotel stays will be useful.
